NATIVE NEW ENGLAND GROWN FLOWERS FOR CASUAL WEDDINGS & EVENTS

MICRO-WEDDING DIY FLORAL PACKAGES

If you (or your bff) have a knack for floral design, are flexible with colors and textures, would like affordable flowers and love **supporting local farmers**, then this is for you.

Our purpose is to reduce the carbon

footprint of floriculture, support local New England farmers and supply affordable alternatives to traditional floral ideals, creating more artistic opportunity for all.

LET'S COORDINATE YOUR STYLE WITH THE BEAUTIFUL SEASONS OF NEW ENGLAND.

Each new season provides the perfect ever-changing choices to create your true Country New England styled wedding from June to October. Flowers are sustainably grown at Monadnock Native Perennials in nearby Hanock, NH and other local flower farms. Each harvest will be chosen based on the freshest available foliage, filler, and focal flowers.

Harvested just days before your event, your flowers are professionally cleaned, hydrated, and delivered in organized, custom coordinated containers, each clearly marked with their intended purpose (i.e. bouquet, boutonniere, mason jar table tops, cake florals, etc).

A beautiful "Bridal Garden Basket" is included with easy to read instructions, written specifically for you and filled with ribbon, pearl pins, gloves, snips and heirloom flower seeds for you to plant and enjoy for years to come.

Creativity does not have rules... only wings.
